

Disposable Steriliser Bags & Sterilising Tablets

Safe for all Baby's feeding equipment

With over 25 years manufacturing experience, Hydrachem with Oasis has the solution. Using an organic chlorine donor that releases a measured amount of active ingredients to sterilise feeding equipment without undue taint or odour, making the product acceptable to both mother and baby.

Makes water sterile & safe - **fast**

Disposable Steriliser Bags & Sterilising Tablets

Makes water sterile & safe - fast

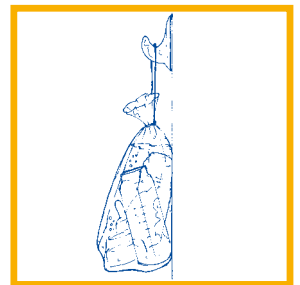

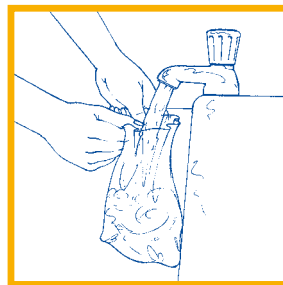

- Ideal for holidays, short breaks or home use
- Safe to use with foreign tap water
- Sterilises in 30 minutes
- Each bag lasts 24 hours
- Fits easily into a pocket or handbag
- Individually wrapped for use as required
- No mains or battery power required

Disposable Steriliser Bags

Sterilising your baby's equipment can be quite a task when away from home. Not anymore. Oasis Disposable Steriliser Bags allow for safe sterilising of baby's equipment in convenient single use bags. No more bulky sterilising tanks. No need for mains supply or batteries. The safe portable solution for all your sterilising needs!

Instructions for use:

1. Simply fill bag with water, allow tablets to fully dissolve, add items and submerge for a minimum of 30 minutes for safe sterilisation.
2. Each bag is a totally self contained steriliser unit lasting up to 24 hours.
3. Use a fresh bag and solution every 24 hours.

Perfect for short trips or long journeys abroad and safe to use with foreign tap water.

Sterilising Tablets

Hydrachem is the UK's principal manufacturer of baby bottle Sterilising Tablets, for use in hospitals and the home, whether branded or own label.

Oasis is a range of branded products manufactured to the same exacting standards demanded by hospitals and retail own label products.

In-house research indicates that mothers are not loyal to any particular brand of sterilising tablets but are rather more interested in value for money. That is why Oasis baby bottle sterilising tablets sell so well in multiple retailers, pharmacy, cash & carry and drug stores worldwide.

Oasis tablets are tear resistant foil protected for enhanced shelf life and safety. As a policy, we insist all products are expiry dated and batch coded on each carton and individually foil stripped for safety and traceability.
